GitHub : <https://github.com/hananraza53>

Portfolio : <https://hanan-dev.netlify.app>

<https://www.linkedin.com/in/muhammad-hanan-raza>

**Aspiring Web Developer with hands-on experience in HTML, CSS, JavaScript, PHP, MySQL, C#, and ASP.NET Core MVC through ACCP Prime 2.0 projects. Built and deployed responsive web applications, CRUD systems, and authentication features, while practicing version control with Git and deployment on Netlify. Completed Pre-Engineering education and TechWiz 5 participation certificate, demonstrating problem-solving, analytical thinking, and teamwork. Seeking an entry-level Web Developer role to apply technical skills and grow in full-stack development.**

---

## Professional Experience

### Web Developer (Projects / Practice)

*Self-Initiated Projects, Karachi, Sindh*

*July 2026 - Present*

- Developed web applications using ASP.NET Core MVC and C#.
- Implemented MVC architecture, controllers, views, and models.
- Built CRUD operations using SQL Server and Entity Framework basics.
- Developed responsive web interfaces using HTML, CSS, and JavaScript.
- Created backend logic and database-driven features using PHP and MySQL.
- Practiced authentication, form validation, and error handling.
- Used GitHub for version control and deployed frontend projects on Netlify.

---

## Education

Diploma / Professional Certification in Information Technology / Software Development July 2024 - Present

Aptech Institute at Karachi, Sindh, Pakistan

- Coursework in HTML, CSS, JavaScript, PHP, MySQL, C#, and ASP.NET Core MVC
- Built responsive web interfaces and backend systems
- Developed CRUD applications, authentication features, and database-driven logic
- Practiced Git version control and deployed projects on Netlify

High School Diploma in Computer Science March 2023 - June 2025

Mahd Al Uloom at Jeddah, Saudi Arabia

- Completed secondary education with emphasis on Computer Science and ICT.
- Gained foundational skills in basic programming and computer applications.

Intermediate / F.Sc in Pre-Engineering March 2023 - May 2025

Jauhar Degree College at Karachi, Sindh, Pakistan

- Completed F.Sc Pre-Engineering with focus on Mathematics, Physics, and Chemistry.
- Developed analytical and problem-solving skills applicable to programming and software development.

---

## Key Skills

- **Detail oriented - Proficient**
- **Web development: HTML, CSS, JavaScript, PHP, MySQL, C#, ASP.NET Core MVC, MS SQL / SSMS - Competent**

- **Problem-solving and debugging skills - Proficient**
  - **Teamwork and collaboration - Competent**
  - **Git / GitHub version control and project deployment - Competent**
- 

## **Certifications**

**TechWiz 5**

September 2024

**Aptech Institute**

Participated in the global TechWiz 5 competition, gaining exposure to programming, problem-solving, and web development challenges.

**ACCP Prime 2.0 Diploma (DISM & CPISM)**

January 2026

**Aptech Institute**

Completed the 1-year ACCP Prime 2.0 program in September 2025, covering web development, C#, ASP.NET Core MVC, PHP, MySQL, and software development best practices. Gained hands-on experience through practical projects, including CRUD applications, authentication systems, and responsive web interfaces.
